Mirror frames

Mirror Mate LLC of Matthews, N.C., created a line of custom-cut frames that adhere directly to plate glass bathroom mirrors already on the wall. They can be cut to any mirror size and to fit where the mirror edge meets a backsplash, wall or ceiling, according to the release. The frames cover clips that hold the mirror and mask the mirror's edge when viewed from the side. Easy to assemble and install, they are available in more than 35 styles and finishes, from wood to metallic tones, according to the release.
